To

The Firms dealing in Machinery.

Enquiry No. 2357.

MACHINERY REQUIRED FOR M.P.L. AND SIVASAMUDRAM WORKSHOPS, E.D. 465.

GENTLEMEN,

I write to request you to quote your best prices and earliest time of delivery for the machinery described below :—

1. *One*—30" Upright Drilling Machine, double geared, and having self-acting feed, with automatic trip motion; hand feed by worm and wheel and rack, and also sensitive feed by hand-wheel operating direct on the rack and pinion shaft. The spindle should be balanced and the sleeve graduated. The table should be capable of swinging aside on pillar and being raised and lowered by screw and handle. Self-contained countershaft should be provided and the spindles should be bored for No. 4 Morse Taper.

   It should also conform more or less to the following specifications :—

The machine should drill up to	1⅝ inch.
Diameter of spindle	1¾ "
Vertical adjustment of spindle	8 inches.
Vertical adjustment of table	19 "
Diameter of table	26 "
Driving pulleys	14×3½ inch.
Speed of pulley	300 revolutions.
Cone pulleys	11⅜ to 5¼×2⅜ inch.
Diameter of turned column	7¼ inch.

2. *One*—Standard Planing Machine 4′×2′×2′ (complete with one set of necessary tools) with machine-cut gearing and mild-steel pinions wherever necessary. The horizontal, vertical and angular feeds should be self-acting and the V bearings should have self-acting lubricators. The table should have a quick return.

   The price to be quoted should be for delivery f.o.r., Mysore.

3. *One*—Heavy-duty sliding-bed gap lathe direct-driven from an electric motor suitable for running on 220-volts, 25-cycles, 3-phase system, conforming more or less to the following specifications :—

Height of centre over-bed	9 inches.
Length of bed closed	12 feet.
Length of bed when extended	15'—5"
Admit between centres bed closed	10'—0"
Swings over saddle	6 inches.
Swings in gap	22½ "
Face plate	42 "
Hollow spindle bore	1⅜ inch.
Width of bed	17¼ inches.
Width of wheel	3⅛ "
Width of gap	13½ "
Gap in bed	20 "
Diameter of wheel or spindle	13¾ "
Head-stock self-contained.	

The lathe must be self-contained with a motor 220-volts A.C. 25-cycles.

The price to be quoted should be for delivery f.o.r., Maddur, Mysore Railways.

Illustrated pamphlets showing the equipment offered should be furnished along with your tender.

This enquiry will close on the 22nd of July 1937.

No. S. P. C. 25221-35, *dated 30th June* 1937.

To

The Firms dealing in Tank and Staging.

Enquiry No. 2358.

TANK AND STAGING FOR MYSORE CITY WATER SUPPLY.

GENTLEMEN,

Please be good enough to intimate your best prices for delivery, f.o.r., Mysore and the earliest time of delivery for the materials described in the schedule given below.

It should be distinctly understood that the acceptance by us of your quotation will be subject to the following conditions :—

Withdrawal from the quotation after it is accepted or failure to make the supply within the specified time or according to specifications will entail cancellation of the order and purchases being made at your expense from other sources in addition to the levy of a penalty of 3 per cent of the value of the order as and by way of liquidated damages. In such an event, the Stores Purchase Committee reserve the right to remove your name from the list of approved firms.

The quotations should be superscribed "Quotations for Tank and Staging for Mysore City Water Supply", with the above Enquiry Number

This enquiry will be closed on the 23rd July 1937.

Specifications for a Pressed Steel Tank for improving water supply to Narasimharaja Mohalla, Mysore.

One pressed Steel Tank 24'×24'×12'. The tank should consist of steel plates each 4 ft. square the thickness of the bottom and lower tier of the side plates being ¼" and uppers 3–16". The tank should be provided with ⅛" thick mild steel plate covering supported on angle iron rafters with necessary slope and manhole about 21" diameter. A dust proof manhole cover with necessary locking arrangements should also be provided for. The tank should have suitable stays inside. A steel ladder to get into the tank from the manhole should be included with necessary fixtures.

A suitable level indicator with necessary pulleys, floats and pointer, etc., complete should be provided for with necessary gauge board.

Sufficient quantity of jointing materials, bolts and nuts with washers, etc., should be sent to enable the construction of the same at site.

The tank should be painted with red-oxide before despatch.

One foot below the top of one of the side plates a flange of 6" diameter should be provided to take in a 6" inlet pipe; and a 6" flange should be provided in one of the bottom plates for taking a 6" outlet pipe. Besides these a 3" hole for overflow right at the top of the side plate and 3" hole for taking the scour in one of the bottom plates should also be provided with necessary bolt holes to suit standard flanges.

Staging.

The tank is proposed to be installed on a staging 30' high and separate quotations should be given for the staging material including the Girders necessary to support the tank.

A ladder 42' high to get to the top of the tank from the ground should be included in the quotation. The ladder should be complete with hand rails and bed bolts (to fix it in concrete).

Complete drawings should be forwarded with the quotations.

Alternatively.

Quotations may also be submitted for Reinforced cement concrete tanks of 40,000 gallons capacity on Reinforced Cement Concrete staging with necessary ladders, etc., complete. These tanks should also be provided with the necessary flanges to take in the inlet, outlet, overflow and scour pipes.

No. S. P. C. 24-38, dated 3rd July 1937.

To

The Firms dealing in Food Grains.

Enquiry No. 2364.

CRUSHED GRAM.

GENTLEMEN,

Sealed tenders will be received by the Stores Purchase Committee for the supply of Crushed Horse Gram, free from dust and other impurities, to the Serum Institute, Bangalore, during the year 1937-38.

The approximate quantity required during the year is 75,000 lbs.

The price to be quoted should be per unit of 100 lbs. delivered free at the Serum Institute, Bangalore, subject to the attached conditions of contract.

Quotations should reach the undersigned on or before the 15th of July 1937.

Conditions of contract for the supply of Crushed Horse Gram to the Serum Institute.

The Stores Purchase Committee do not bind themselves to accept the lowest or any tender.

2. Tenders should be for supply of only good and cleaned grain, free from all kinds of impurities and suitable for being consumed without further cleaning.

3. The quantity specified in the enquiry is only approximate. The actual quantity to be purchased will be more or less. The contract will be deemed to be limited to the quantity actually drawn on indents during the period of contract.

4. Tenderers should specify rate per 100 lbs. net, which should include all charges for free delivery at the Serum Institute, Bangalore. Samples of grain offered should also accompany the tenders in two sets.

5. The rate quoted should hold good for a period of two weeks from the date fixed for receiving the tender. Withdrawal from tender before the above period or after acceptance of the tender is communicated, due to whatever causes, will entail forfeiture of earnest money deposited in connection with the tender.

6. For the due fulfilment of the contract, the successful tenderers will be required to execute a stamped agreement within a week from the date of receipt of intimation that their tenders have been accepted and to deposit as security, an amount equal to five per cent of the value of the order, failing which the earnest money referred to in the following paragraph will be forfeited to Government and the order cancelled immediately.

7. Tenderers should remit a sum of Rs. 100 as earnest money to the State Huzur Treasury with the challan form which can be had from the undersigned and the fact should duly be noted in the tender. Any tender not complying with this condition will not be considered. Earnest moneys will be returned to parties after the tenders are disposed of in the case of unsuccessful tenderers but in respect of successful tenderers only after the requisite security deposit is furnished.

8. The contract will run for a period of one year from 15th of July 1937. The contractor whose tender is accepted should be prepared to supply the material in strict conformity to the approved sample on indents from the Superintendent of the Serum Institute, Bangalore, within the time specified in the indents. All unsatisfactory supplies will be rejected.

9. No application from the contractor for any enhancement of the prices accepted by the committee, due to whatsoever causes, will be entertained during the period of contract.

10. Should the contractors fail to comply with any of the conditions detailed above, the contract will forthwith be cancelled and the security deposit forfeited to Government. The contractors will further be bound to make good to Government any loss which may arise from their failure to supply the articles contracted for or by Government having to purchase the articles specified in the contract in the local market at higher rates than those contracted for.

11. The Stores Purchase Committee may at their discretion and within the limits of the approved rate determine the relative price of any articles that may not, in their opinion, be found up to the standard of quality required, but accepted by the indenting officer on ground of urgency or other causes.

12. Should any question arise respecting the quality of the materials supplied or the manner of performance of the contract, the contractors should agree to abide by the decision of the Stores Purchase Committee.

13. Tenders should be sent in sealed covers superscribed "Tender for the supply of food grains for the Serum Institute".

No. S. P. C. 196-205, dated 5th July 1937.

To

The Furniture Contractors.

T. RANGASWAMI,
Secretary,
Stores Purchase Committee.

DEPARTMENT OF AGRICULTURE IN MYSORE.

OFFICE OF THE DEPUTY DIRECTOR OF AGRICULTURE, BANGALORE.

Notification dated 30th June 1937.

Sealed tenders will be received by the undersigned up to 4 P.M. on 25th July 1937, for the supply of miscellaneous articles required for the Nagenahalli Paddy Breeding Station, Mysore, (six miles from Mysore on the Mysore-Bangalore Road), during the official year 1937-38. Tenders will be opened by the undersigned at 5 P.M. on 25th July 1937 in the presence of as many tenderers as may choose to attend and the rates will be read out to them.

The approximate quantities and description of the articles required are given in the statement below. Tenders should be superscribed "Tenders for the supply of Miscellaneous Articles for the Nagenahalli Paddy Breeding Station, Mysore" during the year 1937-38.

An earnest money of Rs. 100 should be deposited in the Mysore District Treasury in favour of the Junior Assistant Botanist, Nagenahalli Paddy Breeding Station, Mysore, and the Treasury chellan obtained therefor should accompany the tender, without which the tender will not be received.

Tenders should quote for the delivery of the articles on the Breeding Station, six miles from Mysore on Bangalore-Mysore Road. Each group of articles will be considered as a separate tender by itself.

The quantities given in the statement are only approximate and the actual quantities to be purchased during the year may either be more or less. If quantities more than those mentioned in the schedule are required, the successful tenderer will be bound to supply such additional quantities at the accepted rate.

No claim for compensation on account of rise in prices due to whatever cause will be entertained during the contract period.
